Key Features: Actual Surface Area: 1,425.25 m² according to the most recent topographic survey and coordinate list. Topography: Completely FLAT plot, which implies massive cost savings in excavation and foundation works. Current State: Consolidated urban plot with existing perimeter retaining walls and street-facing stone walls already in place. Urban Potential (Zone U.4): Buildability: 0.40 m²t / m²s (Allowing for approximately 570 m² of building roof area above ground level). Height: Ground floor + 1 (2 levels total).
