4-Bedroom, 3-Bathroom Apartment with Stunning Sea Views

This spacious home offers the perfect balance of comfort and elegance. With breathtaking sea views from the main rooms, it is ideally suited for a family seeking a high standard of living in a privileged location.

Modern and Carefully Designed Communal Areas

The shared spaces are thoughtfully designed with attention to the smallest details. Interior communal floors are finished in marble, and the walls feature smooth plasterwork painted with high-quality plastic paint.

Technology and sustainability play a key role: exterior lighting in pedestrian areas uses low light-pollution lampposts and fixtures, ensuring reduced energy consumption and more efficient use of resources.

The elevators, connecting the underground garage with every floor, are equipped with elegant cabins that match the overall design. They comply with accessibility standards and include automatic stainless steel doors, emergency alarms, and built-in telephone service.

The garage entry gate is motorized, operated via remote control or key.
