Long Term Rental - House - Atalaya

9.000€ / Month

Atalaya **House**

4 **4** **250 m2** **400 m2**

AVAILABLE FOR LONG TERM FROM NOW A brand-new 4-bedroom townhouse in the heart of Atalaya, receiving its final finishing touches this week and coming to market for the very first time. Every surface speaks to a level of craftsmanship you simply don't find in standard new-builds — hand-applied micro-cement, sculptural lighting, bespoke joinery and a material palette of warm timber, brass and stone that feels considered rather than catalogue. Across its generous layout, the home flows from bright, elegant living spaces to four well-proportioned bedrooms. Then there's the outside. A substantial private plot wraps the home in space that's genuinely rare at this price point — a large landscaped garden, a shaded covered terrace for al-fresco living, and a private rooftop solárium commanding sun from morning to evening. For a discerning buyer who wants brand-new, turnkey and set apart from the crowd, this is the one to move on first.
