A terraced duplex in the small, quiet community of Pueblo Minea offers a simple, practical base in the heart of Cerros del Aguila, Mijas. The home opens directly into the kitchen, giving it an immediate, lived-in feel, and the ground floor unfolds into a straightforward layout designed for easy use. There is a double bedroom on this level with its own sliding doors to the patio, and a separate bathroom sits just across the hall. The lounge centres around a fireplace and also connects to the patio through wide sliding doors, creating a natural flow between indoor comfort and outdoor space. Upstairs, the second bedroom enjoys more privacy, complete with an en-suite bathroom and its own terrace. From here, a view of the surrounding countryside, giving the upper floor a calmer, more open atmosphere. A door from the terrace leads into a separate storeroom, adding a practical touch for anyone needing extra space. The location brings everyday convenience within easy reach. The communal pool, tennis court, playground and cafe/restaurant are a short walk away in addition to the bars and restaurants which sit just a few metres away, tucked off the main road plus there are several golf courses close by. A short drive takes you down to the beaches and lively centres of La Cala de Mijas and Fuengirola, while heading uphill leads to the charm and views of Mijas Pueblo. The property has been used for long-term rentals and now needs refurbishment, making it a solid opportunity for someone looking to modernise a home to their own taste. With its layout, outdoor areas and position within a small community, it works well as a second-home getaway or as a rental investment with good potential once updated. NB. water usage is included within the community charges.
